## **Largo Tank & Equipment, Inc. Achieves National Truck Equipment Association Member Verification Program Status**

Largo Tank & Equipment, Inc. in Farmington, New Mexico has achieved **Member Verification Program (MVP)** status through the National Truck Equipment Association (NTEA).

The NTEA developed the MVP to meet its key strategic objectives of building better partnerships between distributors, manufacturers, suppliers and customers. A total of **204** NTEA members have achieved MVP status since the program was introduced in May 2005.

To qualify, truck equipment manufacturers and distributors must meet four of five criteria that are key to providing quality products and vehicles. Vehicle upfitters must provide proof that they are registered with the National Highway Traffic Safety Administration (NHTSA) and that they are attempting to comply with NHTSA's vehicle certification rules. In addition, they must also demonstrate that their businesses include two of three of the following:

### Minimum Liability Insurance Coverage

- A quality assurance program
- ASE certified mechanics or welders

Body and Equipment manufacturers must demonstrate that their businesses include four of five of the following:

### Minimum Insurance Coverage

- Quality assurance program
- Certified employees- (ASE, DOT and ASME certifications)
- Written warranty policy
- Written installation and operating instructions

Over time, the NTEA will increase program requirements to encourage even higher standards that must be met in order to continue to qualify for the program. Members must re-qualify every three years to maintain their MVP status.

For a complete listing of MVP members, visit [www.ntea.com](http://www.ntea.com)

*Established in 1964, the NTEA is the leading association supporting the \$98.3 billion work truck and trailer industry. The association represents nearly 1,600 companies that manufacture, distribute, sell and repair commercial trucks, truck bodies, truck equipment, trailers and accessories. Buyers of work trucks and the major commercial chassis manufacturers also belong to the Association. The NTEA provides in-depth technical information, education and member programs and services. The Association maintains its administrative headquarters in suburban Detroit and a government relations office in Washington, DC. For more information, call 1-800-441-NTEA or visit [www.ntea.com](http://www.ntea.com).*
